Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see pages 3-5, filed 4/14/03, with respect to claims 1, 3, and 8 have been fully considered and are persuasive. The rejection of claims 1-9 has been withdrawn.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the image reader with a light-guiding transparent board of the primary reference, Yamana et al. (U.S. Patent No. 5,696,607) does not teach light panel concentrating sections of different properties. The Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior art which teaches an installation on a scanner wherein a light channeling panel concentrates more light to the end portions of the linear light source, rather than the mid portion, and the light channeling panel is formed from a plurality of panel materials, each having a different light transparency.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2622

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

a. Miyamoto (Japanese Patent No. 61,026,039) discloses a scanner with a platen for increasing light to the corner parts of the platen.
